Harmonious Session-Yesterday's Proceedings in Detail.

(Special telegram to the Dispatch.) BIRMINGHAM, MLA., May 11.-The Southern Baptist Convention reassembed this morning. The first question that came up was the resolution by J. M. Carroll, of Texas, to reduce the number of delegates by doing away with the one delegate now allowed each association. An amendment was offered doing away with the representation on a money basis and making all delegates represent numbers. After a word or two of opposition from Dr. Haw-thorne the whole matter was laid on the table.

Rev. J. C. Davis, a fraternal messenger from the Baptists of England, was intro-duced and delivered an eloquent address. FOR IMPROVING THE METHODS OF COLLECTING

A resolution was introduced from the Committee on Resolutions providing for a committee to devise ways and means for improving the methods of the collection of money. It urges that money be raised at such times that the payments to the boards may be made quarterly, in equal amounts; also, that a committee be appointed of one from each State to act in conjunction with the State boards in carrying out the resolutions agreed upon; also, that the committee report a digest of its action to the State convention.

THE NAVY DEPARTMENT MUM.

Secretary Tracy this afternoon sent word from his office that he had nothing to say about the Chilean lists or the Charleston, and Commodore Ramsey, the chief of the Navigation Bureau, said that he was not at liberty to say anything whatever on the subject. The head of the department is probably in dread that an unguarded admission to a reporter might result in the disclosure of the plan of campaign, in which the entire available force in the Pacific is arrayed against one steamer, whose war-like character has not yet been demonstrated. Certainly the Government appears to be making extraordinary efforts to recapture the Itata, for, in addition to cabling Admirals Brown and McCann to head off the runaway before she reaches Chilean waters, it is understood that instructions have been sent to the United States consular officers at all points between California and Chile where the Itata could touch to promptly advise the naval officers of her movements if she is sighted. THE NAVY DEPARTMENT MUM.

if she is sighted.

THE CHARLESTON'S CURIOUS COURSE. In strange contrast to this exhibition of zeal is the course of the Charleston, which is in chase of the runaway. This vessel sailed from San Francisco early Saturday morning bound southward. She is an eighteen-knot vessel, and last night she should have been 550 miles down the coast should have been 650 miles down the coast or hear San Lucas, or where the Chilean insurgent war-ship Ismeralda is supposed to be lying in wait for the Itata. But in-stead of covering this distance the Charles-ton got about half way and then went to anchor overnight. Later advices show that she was last seen just above the Mexi-can boundary line. WHAT IS THOUGHT OF THE SITUATION.

what is thought of the situation.

Such officers as have an opinion that they feel free to express say that the Charleston's movements can be explained in two ways: Either the department believes that the Itata is lying somewhere off the ceast of California or it has no intention of seizing the vessel unless her presence is made unpleasantly noticeable within easy reach. The motive for such an attitude by our Government as that indicated by the last theory is rather hinted at than directly stated by officials. It is, in brief, that it might not be good diplomacy for the United States to go too far in the direction of hostility towards the Chilean insurgents. The duties of a friendly Government such as this have been finally and clearly enunciated by the authorities in international law, but it can be safely assumed that in the one-rations of the United States Marshal in seizing the Itata and the Robert and Minnie and in the pursuit of the Itata as long as she was in United States waters, our Government has already shown what the Geneva arbitration in the Alabama case has declared to be due dilligence. The policy of our Government in this matter will probably soon be made clear by the movements of the Charleston, and if she could content herself with a thorough search of American waters and return to could content herself with a thorong search of American waters and return uport in a day or two it may be that the Government will rest satisfied.

New York, May 11.—It is stated at the house of Walter Damrosch, 72 west Seventieth street, where Secretary Blaine is now ill, that Mr. Biaine's condition this merning is greatly improved. Dr. Dennis called at an early hour and made an examination of the Secretary of State. He said that there was nothing alarming about Mr. Blaine's condition and advised rest and quiet. The only medicine which he prescribed was pepsin for indigestion. Mrs. Blaine was seen by a reporter, and in an interview she said:

Mr. Blaine is still confined to his bed but he is resting quietly, and there is no danger whatever. In fact, he is almost well. His attending physician advised Mr. Blaine not to return to Washington today. The Secretary would return to the Capitol if I would permit it. But, in view of the physician's advice, I would not let him go under any circumstances. Since the President's absence from Washington Mr. Blaine has been working very hard, and the fact is that he was called upon to look after all the affairs of the Department of Stete. I attribute the present attack to Mr. Blaine's having hurried over to this city to see his daughter off for Europe, thus getting out of his regular daily routine.

Ballew and his family resisted, and in the battle which followed John Bell was killed, "Big" and "Wild Bill" Beil, Hiram Morton, Jack Johnson, and three Hiram Morton, Jack Johnson, and three others were fatally shot.

Johnston and "Big" Bell have since died and it is said the others are dying. There have been no arrests and both sides are armed for more warfare.

HER CARGO OF COTTON ON FIRE.

[By telegraph to the Dispatch.] (By telegraph to the Dispatch.)

WILMINGTON, N. C., May 11.—The steamship El Monte, of the Morgan Line, New Orieans to New York, with a cargo of cotton, put into Southport at 9 A. M. with her cotton on fire. The fire was discovered when about one hundred miles south of Southport. It is now apparently under centrol. The burned cotton will be discharged at once, and the spip will probably proceed on her voyage to morrow. The extent of the damage has not yet been ascertained. The El Monte is a large fourmasted steamer, and came over the bar drawing twenty feet ten inches.

Chicago, Lia., May 11.— The Belding Manufacturing Company made an assignment this morning. The liabilities are about \$175,000, of which \$100,000 is for borrowed money. The assets are not scheduled, but are thought not to exceed the liabilities. The suspension was caused by two disastrous fires that ruined the company's stock and shops at Hermosa, and by the failure of capitalists to fulfil promises of financial support. Charles H. Bunker,

A Railroad Up Elk River. [Special telegram to the Dispatch.]
Charleston, W. Va., May 11.—A massmeeting of the business-men of Charleston
was held to-night to devise means to construct a railroad up Elk river to conhect at
Braxton Courthouse with the Camden system of roads. A committee was appointed
to solicit subscriptions and report next
Saturday night. Enough will be obtained
to secure the construction of the road, and
thereby open up a most valuable territory.

THE BULIS ENCOURAGED.

This encouraged the bulls again, and they showed their hand in the aftermoon by buying stocks all along the line, the business done being larger than for many days and the improvement in prices most important. The shorts were driven to cover in many of the leading shares, the Grangers, Louisville, Missouri Pecific, Wheeling and Lake Erie, and some specialities showing marked strength. The market gave every appearance of having turned bullsh again and the buying was of the most excellent character in the stocks mentioned, while even the week stocks of the ovening railled and closed higher, with the exception of cordage.

THE OPENING IRREGULAR.

Opening prices were irregularly changed from

Opening prices were irregularly changed from those of last Saturday, and the carly losses in the regular list were confined to fractional amounts, with the exception of Chicago Gas, which lost 1½ per cent. The advance from the lowest figures reached 3 per cent, and the upward movement met with no check during the day, the final figures being at or about the highest. The aspect at the close was much the same, and the builts were again confident of a further advance in prices. A small engagement of gibt for export had its influence, and notwithstanding the rumors of political and financial difficulties in Europe operators are inclined to believe that the outward movement of gold has reached its culmination.

The market finally closed active and strong at he best prices of the day. The final changes are almost invariably fractional advances. Sale of listed stock, 331,000 shares; of unlisted, 30,-
